**AMENDMENTS TO THE SPECIFICATION**

Please replace the paragraph beginning at page 5, line 4, with the following rewritten paragraph:

In a known manner, the BSS access network sends, as indicated by arrow 4, mobile terminal MS a first list of frequencies with regard to the cells to be measured via the BCCH channel and second list of frequencies with regard to the cells to be measured via the PBCCH channel. In the system according to the present invention, the transmission indicated by arrow 4 does not necessarily include the first list of frequencies.
